Las Vegas, NV 89120

Re: Letter of recommendation for Boyd Martin Construction

To Whom It May Concern:

As the owner of Allyse's Bridal and Formal, I contracted Boyd Martin Construction to design, engineer and construct a 5700 square foot build-out for my retail location in Henderson, Nevada.

The entire experience with BMC from competitive bid in July 2008, through to completion in October 2008 was very positive. BMC provided a detailed proposal that was priced lower than the competitors, and recommended a time and materials format rather than fixed bid, saying that it would probably save me some money. I later realized their honesty in this matter when in the end they reduced the price further by implementing their own cost cutting efficiencies and obtained the best prices for materials and subs. They quickly responded during the job to changes and unique requests on my part. The final product was high quality, and required very little in follow-up visits from BMC. We are thrilled with the job they did.

As a company, Boyd Martin Construction proved to be honest, efficient, meticulous and highly qualified. They provided a dedicated project manager, Derrick Williams, and an on-site supervisor, Will Taylor – both friendly and professional. BMC kept me confident and happy. And ultimately they were on time and under budget.

Boyd Martin Construction is an excellent general contractor. I do not hesitate to recommend them and would certainly use them in the future.

Sincerely,

A handwritten signature in blue ink, appearing to read 'David Young'.
