RE: Tenant Improvement Project

Dear Mr. Martin:

I want to thank you and your company for the fine work you have done in the construction of our bridal store—Blush Bridal Boutique—located in the Montecito Marketplace. The project turned out even better than my daughter, wife, and I had originally envisioned. Most appreciated was the professionalism your company extended to my family and me during this four-month project.

I want to particularly recognize and thank the great work and personal service provided by Derrick and Curtis during this project. Derrick was instrumental in helping my daughter develop the beautiful design and reasonable cost for our boutique. He demonstrated to me before any contract was signed that your company was one of great service and integrity; his efforts proved to be the sole reason why we entered into a contract with your company. Just as important, he communicated with my daughter and me throughout this project, giving us the confidence that this project would be completed on time and to the highest standard.

Curtis proved to be the perfect on-site construction manager. He not only ensured high standards of construction, particularly with regard to subcontractors, but also provided essential advice and assistance to my daughter, who had to make most of our decisions on her own (since my wife and I live outside the state and were not present for the planning or actual construction). He also worked very hard to ensure all the final touches were made in order to produce the beautiful bridal boutique that we now have.

Please feel free to use me as a reference for future potential customers. I look forward to sharing with others the great experience I had with BMC during this project. Thank you again for the fine work you and your company performed in the construction of our bridal store; pleased extend my gratitude to Derrick and Curtis for their superb assistance.

Respectfully,  
Blush Bridal Boutique LLC
