To Whom It May Concern:

It is with great pleasure that we write this letter in recommendation of Boyd Martin and Boyd Martin Construction, LLC.

I have done several projects over the last 12 years with Mr. Martin. They have ranged from small projects of under \$20,000.00 to significant design build projects of over \$7MM. In every situation Mr. Martin and his staff displayed exceptional professionalism, capability & follow through. They maintain excellent relationships with the municipalities, utilities and subcontractors necessary to cut through the "red tape" and get things done.

Mr. Martin came to us through a recommendation from a fellow auto dealer who had used him on several occasions with great results. Since then I have spoken with several other clients of BMC and they all have had similar experiences. It seems that excellence is a habit with Boyd Martin Construction.

In short, if you have any project of any size, you would be well served by considering Mr. Martin and his company. Construction of any project is fraught with potential problems. Having the professionals from BMC on your side makes everything easier.

I would be happy to speak with you regarding Boyd Martin Construction, LLC.

Sincerely,

Don Hamrick  
Vice-President, General Manager
