Re: Boyd Martin Construction
5965 McLeod Drive
Las Vegas, Nevada 89120

To Whom It May Concern:

I have personally worked with Boyd Martin Construction over the past several years and would recommend this company to anyone with a construction project of any size. I have found them to be honest and fair, meeting or exceeding their committed deadlines and completion dates. This is the only local construction company that we have entered into agreements with as a "local preferred contractor", negotiating a portion of our new meetinghouses with rather than going to low bid.

This company has recently completed a full size Stake Center in downtown Henderson with 24,460 square feet. The project was completed ahead of schedule and within budget. They also recently completed a project replacing a gym floor and interior finishes while the Chapel was still being used each Sunday. They are currently constructing a new Chapel (16,558 square feet) in the southwest portion of Las Vegas. I have found Boyd Martin Construction to do a quality job, and come in within the budget and on schedule. On low bid projects, I am relieved when Boyd Martin Construction is awarded the bid.

Sincerely,

David E. Lystrup
Project Manager
