Re: Boyd Martin Construction

To Whom It May Concern:

The Law Office of Kemp & Kemp wholeheartedly recommends to you Boyd Martin Construction if you are considering any construction project for commercial office space. In late 2006 I had the pleasure of personally meeting with Boyd Martin who was friendly, helpful, knowledgeable and available at all times to answer any questions that we might have regarding our proposed project. Throughout the planning and pre-construction phase Boyd Martin was always personally available to us to answer any questions that we might have. I found this personal attention reassuring and confidence inspiring as this was our first foray into contracting for construction.

In addition to Boyd's personal attention we also had the pleasure of working with his knowledgeable and friendly staff. The construction went surprisingly smoothly. We were particularly pleased with the frequent updates that we received from the on-site project manager as well as our several meetings on site with Boyd Martin himself to go over the progress of the construction. Boyd's personal attention to any problems or glitches that are inherent in any construction endeavor was greatly appreciated.

Boyd Martin Construction went the extra mile in assisting us with making sure that every detail of our building was correct and not just up to the specifications of the plans, but up to our personal satisfaction as well. Again I wholeheartedly commend to you Boyd Martin Construction for any commercial construction project that you may be considering. I would certainly use Boyd Martin Construction again and on any commercial construction project or tenant improvement that my firm may undertake in the future.

Please do not hesitate to contact me if you should have any questions or concerns regarding this letter or the matter at hand.

Sincerely,

J.P. KEMP
