Boyd Martin Construction, LLC
5965 McLeod Dr
Las Vegas NV 89120

Dear Boyd,

When we started looking for a company to complete the build out of our office we entertained several proposals. Because of your professional proposal we decided to meet with you and Derrick Williams to explore hiring your company to complete our office.

I must say that we left that meeting with complete confidence in your company and your ability to complete our project within the short time frame that we required. From the very beginning Derrick (Project Coordinator) was in contact with us either by telephone or email on each phase of the project. I even had the opportunity to meet with the Project Foreman (Dave Cox) and was extremely impressed with his attention to detail. For example prior to 8:00 one morning I noticed him picking up trash around the building. We are extremely impressed with your attention to the smallest detail.

Your progress billings were accurate and included the required detail so prompt payment could be made. At the completion of the project we received a final invoice that was slightly under budget. This was a tremendous benefit to us to have your bid closely align with the final amount due.

No sub-contractor problems, no workmanship problems, no material problems, no contract problems, and no management problems equal a very satisfied customer.

If you should ever need a reference please have your prospective customer give me a call.

Sincerely,

Dean Wangsgard, CCE
President
