To Whom It May Concern:

Recently Boyd Martin Construction Company completed construction of our Subaru of Las Vegas dealership facility at 5385 West Sahara Avenue in Las Vegas. We are very pleased with the quality of the completed facility.

I worked directly with Boyd Martin and the project superintendant, Derrick Williams, throughout the project. I was impressed with the knowledge and professionalism of both Mr. Martin and Mr. Williams.

The project was completed on time and was within our estimated budget. I would not hesitate to utilize the services of Boyd Martin Construction Company on our future construction projects. I would be happy to discuss our experience on this project with anyone considering utilizing Boyd Martin Construction Company.

Sincerely,

A handwritten signature in black ink, appearing to read "Tyler Corder".
