

YMCA

We build strong kids,
strong families, strong communities.

November 2, 2006

To Whom It May Concern:

This letter is written in support of Boyd Martin Construction as a General Contractor in the Las Vegas Valley. Boyd Martin Construction has conducted an extensive renovation project at the Bill & Lillie Heinrich YMCA during the past several months. The project budget exceeded \$4,000,000 and the scope of the project included modernizing our YMCA's locker rooms, lobby, and activity areas as well as constructing a new front entrance addition with an adventure center.

Boyd Martin Construction has done an excellent job in all facets of their work. The entire staff team has been highly professional and easy to work with. The quality of their work has been outstanding and the communication we received throughout the course of the project has been exceptional.

I would highly recommend Boyd Martin Construction as a general contractor for any project. They are an excellent team to work with.

Sincerely,

Michael A. Lubbe
President and Chief Executive Officer
