To Whom It May Concern:

Boyd Martin Construction LLC (BMC), completed the construction of the 4.5 million dollar, 32,000 square foot Pecos Serene office building as well as recently completing an additional 2.0 million dollar build out. Both projects were constructed in an efficient and timely manner. In fact, despite several outside issues which impacted the construction schedule such as adverse weather and Nevada Power Company, BMC was able to complete the projects and allow us to move in on schedule. BMC accomplished this through its excellent working relationship with the public entities and a very competent and capable project superintendent and manager.

In addition, BMC always operated with integrity and had a complete commitment to our project and its completion within the budget parameters and project schedule.

Therefore, I would not hesitate to recommend BMC for any project for which it may be considered.

Sincerely,

**PEEL BRIMLEY LLP**
