Boyd Martin Construction, LLC
5965 McLeod Drive
Las Vegas, NV 89120

Dear Boyd:

It is with great pleasure that I write you this letter of reference. Speaking as an individual tenant of a 3700 square foot space, as well as a principal in the 48,000 square foot project, I cannot emphasize enough what a great job BMC did, from start to finish. Your ability to "value engineer" at the beginning of the project was not only a significant cost saving measure, the project appearance and quality improved. Your ability to organize the different phases of the job, keep us informed, and walk us through what is normally an arduous process was superb. You gave us a sense of understanding and team work. Fiscal management was impressive. You brought the project in on time AND under budget. I believe your attention to detail combined with the pride you take in your work produced a magnificent final product. Without question, the most impressive center I have ever had. The building continually gets compliments from patients and customers alike.

I most highly recommend Boyd Martin construction for any project; I am an impressed and completely satisfied client. Thank you so much for your dedication, hard work and expertise.

Sincerely,

Alex Delgado PT, OCS
